IN A BURST OF ACTIVITY

THE STOCK MARKET CLOSES A BROAD AND BUSY WEEK.

Poor Bank Statement Has No Effect on a Buoyant Trade-Better Money Market Conditions.

NEW YORK, Nov. 9 .- To-day's stock narket was broad and comprehensive in its scope and very active all day. It was Roughs 5.00@5.40 also irregular throughout, but increasingly so toward the last hour, when the unexpected decrease in the cash reserves of the banks reported in the weekly statement was offset by a buoyant upward spurt in week two years ago. Thus far this year the receipts are nearly 57,000 larger than the the New York public utilities, led by Metropolitan Street-railway, which rose some 6% points over last night. Brooklyn Transit gained 3%, Consolidated Gas 214 and Manhattan 2. At the same time there were enormous transactions in Third-avenue 4 per cent. bonds at an extreme decline of about 3 points. The only news any change here. Shippers as usual have bearing on the movement was the reported dissofution of the syndicate which financed the purchase of the Third-avenue Streetrailway. People's Gas came into the movement apparently in sympathy, and there was a sudden jump of 214 in Pressed Steel Car at the last. During the first hour of the market there were widely distributed dealings based on general considerations, such as the uniformly large increase in railroad earnings for the fourth week in October and the belief in early improvement in the money condition. At the same time there was heavy realizing going on in stocks which have had a considerable ad-Good to choice lambs......\$4.00@4.50 Common to medium lambs...... 2.00@3.75 vance lately, the realizing, however, being well absorbed. It is evident that bank loans have not furnished material for the week's speculation, as loans have decreased \$4,927,900. The known movements of money indicated a gain in cash by the banks of over \$2,000,000, while the bank statement shows a loss of \$3,703,700. less than the loss of loans and of cash.

Broader and Better Market, with a Generally Upward Tendency.

[Meyer & Kiser's Telegram.] NEW YORK, Nov. 9.-The indications that the market was broadening and the outside public was becoming interested common and preferred being again the leaders. St. Paul and Union Pacific were buyers of these stocks a few weeks ago the market in order to liquidate. Norfolk were dealt in to a considerable extent and the anthracite coal stocks also were strong. explanation for this movement except pering made by the bank statement was more unfavorable than expected and was full during the last half hour and finally closed not far from the best figures of the day.

Strong in Face of Realizing.

[Granger Farwell & Co.'s Telegram.] NEW YORK, Nov. 9.—The market has shown good strength to-day, in the face of a good deal of realizing. The selling of white, 47c; No. 3 white, 46½c; track mixed white, 47c; No. 3 white, 45% white 4 Union Pacific on bulges was again good, but while the selling seems of the best Hay steady: shipping, 60% character all of it probably will be taken and the price put higher. Commission business was good for Saturday and the bank statement about as expected. Gold exports are looked for next week, but the powers behind the market do not seem to think that will make any difference. The great bull argument here is that through the Northwestern agreement rail rates will be put on a good basis and Kept there, and that other deals will follow which will cause much higher prices later. The public is beginning to come in, and while stocks seem to be high enough it looks as though they will probably go still higher.

ALL THE CEREAL MARKETS AD-VANCED AT THE CLOSE.

Cash Situation and Southwestern Drought the Moving Factors-Provisions Also Somewhat Higher.

CHICAGO, Nov. 9 .- A fair activity in the wheat pit to-day kept the grain markets steady against otherwise sagging influences. December wheat closed 1/3c higher, corn 1/6 1/4c up and oats a shade higher. Provisions closed 21/2c to 71/2c up.

Wheat had a good business both on th early decline resulting from weak cables and on the later bulge. December opened %@4c down at 72%c to 72%c and continued moderate; realizing eased the market to 72% @721/2c. Commission houses were buyers, however, and on the cash demand and reports of continued drought in the Southwest shorts became nervous and covered. This brought a bulge, though a small one, and December sold at 73@731/sc, closing steady, 1/2c up, at 73c. Local receipts were 167 cars, 11 of contract grade. Minneapolis and Duluth reported 798 cars, a total of 965 cars, against 1,020 last week and 631 a year ago. Primary receipts were 1,984,000 bu, compared with 685,000 last year. Seaboard clearances in wheat and flour were equal to 536,000 bu. Australian shipments for the week were 476,000 bu, against 260,000 last week and 116,000 a year ago.

Corn was dull, with a small interest manifested and unimportant trading. December opened unchanged to %c lower on cable influence, and was led throughout by the wheat pit. The advance in wheat brought a steady close, 1/601/4c up, at 591/8/0591/2c. Re-

Oats were quiet, with a smaller trade today than for several days past. There was a moderate realizing early that eased prices, but this was regained on the wheat reaction. December, which opened a shade lower, closed steady and a shade higher at Provisions had a dull, steady market.

Prices were up a trifle at the opening on a fair hog market. Liquidation brought a small reaction, but this was replaced by

Southern on grade, 736,764,6. Corn easier; mixed, 38%c. Receipts were 201 cars. Reserve required, decrease 1,910,825 Surplus, decrease 1,792,875 The banks now hold \$8,689,925 in excess of a small investment demand later. January reserve requirements under the 25 per cent. | pork closed 5c up at \$14.97%, lard 7%c advanced at \$8.60 and ribs 21/2c higher at \$7.70 Estimated receipts for Monday: Wheat, fected the bank statement of this week | 110 cars; corn, 85 cars; oats, 185 cars; hogs,
